

Compliance with NF EN 13432 and NF EN 14855 PLA-R Natural

We hereby, certify that the raw material used to manufacture PLA-R Natural complies with the requirements of NF EN 13432 November 2000 on "Packaging - Requirements for packaging recoverable through compositing and biodegradation - Test scheme and evaluation criteria for the final acceptance of packaging" and NF EN 14855-2 : 2018 on "Determination of the ultimate aerobic biodegradability of plastic materials under controlled composting conditions - Method by analysis of evolved carbon dioxide - Part 2 : gravimetric measurement of carbon dioxide evolved in a laboratory-scale test" (maximum thickness 1 mm).

Moreover, the manufacturing process of PLA-R Natural only use physical transformation steps which do not imply any chemical modification.

Therefore, PLA-R Natural is able to comply with the requirements of NF EN 13432 November 2000 and NF EN 14855-2 : 2018.

Please note that it is the responsibility of the manufacturer to ensure the biodegradability of the final product.
